

540

Discover why Zamboni is the overwhelming choice
for ice rink operators throughout the world.

The 540 is simple to drive and very easy to operate.

The ergonomically designed operator's compartment has controls and gauges placed for ease of operation and optimal visibility during the resurfacing process. Operation of the machine is made easier with an electronic governor and familiar automobile-style foot controls.

The hydrostatic transmission offers unmatched power at any speed. Our smaller more efficient engine consumes less fuel and provides a cleaner arena environment.

The 540 has it all... reliability, performance and handling.

Nothing else is even close

The Ultimate Machine

Our unique engine and hydrostatic transmissions enable the 540 to use a smaller, more efficient engine and can provide significant fuel savings.

Zamboni ice resurfacers have a well-deserved reputation for producing the finest sheet of ice, even after many years of use.

Serviceability

Wide-open access epitomizes Zamboni's commitment to providing the highest level of serviceability. Daily checks of fluid levels and other maintenance items are easy to accomplish, even with the snow tank down.

Transmission

Continuously variable hydrostatic pump and motor are axial-piston type. Provides superior on-ice power with maximum drawbar pull even at low speeds. Full hydro-dynamic braking.

Drivetrain

Four wheel drive. Rugged Dana® Spicer axles offer the industry's highest manufacturers approved capacities.

Front	4300 lbs. (1950 kg)
Rear	6400 lbs. (2903 kg)

Hydraulics

Powerful double pump for the vertical and horizontal augers, delivers strong conveyor performance. Hydraulic down pressure provides superior shaving results. Direct driven "piggy-back" mount for trouble-free service. High quality 10 and 20 micron filters are easy to access.

Construction

Strong 2" x 5" all-welded steel tubing Zamboni chassis. Chassis/axle combination is the key to the 540 having a 16' turning radius - a full 3' tighter than most other machines. High quality primer used throughout. Rust-free polyethylene ice making water tank with easy access cover is standard equipment.
